

## VOLTAGE CHANGE SWITCHING QUESTIONNAIRE

Please provide us with the following information about your application:

1. Manufacturer of generator: \_\_\_\_\_

2. Size of generator (in kW): \_\_\_\_\_

3. Voltage desired (check appropriate box):

- Wye 480 / 277 - 3 Phase \_\_\_\_\_
- Wye Wye 208 / 120 - 3 Phase \_\_\_\_\_
- High Delta 240 / 120 - 3 Phase \_\_\_\_\_
- Double Delta 240 / 120 - 3 Phase \_\_\_\_\_
- Zig Zag 240 / 120 - 3 Phase \_\_\_\_\_
- Low Delta 120 - 3 Phase \_\_\_\_\_
- Other \_\_\_\_\_

*(If possible, please provide the manufacturer's hookup.)*

4. Number of outputs (check appropriate box):

- 1 Output \_\_\_\_\_
- 1 Centerstud (9 stud breaker) \_\_\_\_\_
- 2, 3 or 4 Breakers \_\_\_\_\_ V \_\_\_\_\_ V \_\_\_\_\_ V \_\_\_\_\_ V

5. Is Shunt trip operation required?  Yes  No

6. Do you want to switch the voltage regulator?  Yes  No

Voltage regulator manufacturer: \_\_\_\_\_

Type: \_\_\_\_\_ Voltage: \_\_\_\_\_

*(If switching is required, please provide hookup data with order.)*

7. Do current transformers require switching? \_\_\_\_\_

*(Please provide description or drawings before order is placed.)*

8. Any extra auxiliary contacts desired? \_\_\_\_\_

9. Will switches be mounted on a panel so a padlock device will be accessible from outside the enclosure?  
\_\_\_\_\_

10. Would you want the switch supplied with a door interlock so the door may be opened without disturbing the switch wiring?  
\_\_\_\_\_

11. Do you want the switch provided in an enclosure? \_\_\_\_\_

Do you want the switch wired to terminal blocks? \_\_\_\_\_

12. Please list any special requirements or comments below:  
\_\_\_\_\_  
\_\_\_\_\_
